	KENT'S	BBCR	BTPB
introduction	1).repertory of HMM by J.T.Kent.edited by Clara L.kent 2).life sketch 3).history of kents repertory.	BBCR by CMBoger and life history by T.L.Bradford	BTPB by T.F.Allen. Introduction by HA.Allen Life sketch and contribution Boenninghauen and Boger uses Doctrine of analogy
Published in	1897	1832	1896
Contribution	1).Kents repertory of HMM 2).kents lectures of MM 3).Homoeopathic philosophy	1).BBCR 2).BTPB 3).BSK 4).Bogers card repertory	1).repertory of antipsoric remedies 2). repertory of non-antipsoric remedies 3).prevention and cure of cholera.
Philosophical background	Portrait of disease 2).qualified metal's 3).Physical generals and PQRS 4).Critism of grand generalization.	1).Choosing of remedy 2).repetition of dose 3).Hom.prognosis 4).Doctrine of analogy 5). Doctrine of concomitant 6). Doctrine of pathological generals.	1).repertory is a bridge between physician and diseased patient. 2).totality of 4 important headings—location, sensation, modality and concomitant. 3).doctrine of concomitant.
Totality of symptoms	*Mind=will, understanding and intellect *Physical generals include thermals i.e. general<&>, causative <&>, aversion and desires, types of discharged, PQRS. *physical particulars	1).Grand Generalization 2).Sn and c/o in general 3).pathological generals 4). Pathological lesions with miasmatic background 5). Pathological lesions	1).Grand generalization. 2).Sensation and complaints in general—causative modality, physical modality, emotion ae sphere physical, sphere sensation.

	*characteristic particulars	common at 2 or more locations 6).Concomitant 7).mental for differentiation and confirmation	3).Cravings and aversion 4).Concomitant 5).pathological condition in general 6).mental for final differentiation.
Construction	*Introduction and sources *Plan of repertory-uiform through out—from generals to particulars. *Arrangement of rubrics *Use of repertory *How to study the repertory. *alphabetical order *mind-to-generalities *misplaced ,allies rubrics *gradation=3 *no.of chapter=31	Introduction Choosing of the remedy Repetition Hom. Prognosis MM part –140 remedies from acon to zin.	Mind and intellect Part of body organs Sensation and c/o in general and gland ,bones ,skin Sleep and dreams Fever, circulation of blood Compound fever-Cold stage, heat, perspiration. Alteration in state of health <Acc. To time. <acc. To circumstance and situation. >situation and position relationship of remedies
Repertory part	Mind to generals 31 chapters follows hahneman's schema	Rep. With 54 chapters Mind includes –intellect, sensorium, vertigo 	
Arrangement of rubrics	Side Time Modality Extension	Location Sensation Modality concomitant	

Gradation of symptoms unique rubrics	3= bold 2= <i>italics</i> 1=roman	1= CAPITAL 2= bold 3= <i>italics</i> 4= roman 5=[Roman in paranthesis]	Same as BBCR
Unique rubrics	Capriciousness Women aversion to Kleptomania Catalepsy Eat refuses to Cosmopolitan Industrious Air castles Sulphur abuse of Arsenic poison	Uric acid diathesis Hemophilia Arrangement of time <and> concomitant sensation uremia puberty constitution satyriasis infant alcoholism	Moon phases Sebaceous cyst Blood Groins Vibrations Jerking muscle.
